

Since 2000. Trusted by India's leading pharma and consumer brands.

COMPANY PROFILE

One partner. Every pack.

Folding cartons, self-adhesive labels, leaflets and E-flute cartons for pharma, FMCG and specialty brands. Printed, finished and inspected under one roof in Vasai, Mumbai.

CARTONS • LABELS • LEAFLETS • E-FLUTE CARTONS

CERTIFIED
QUALITY SYSTEMS

WHO WE ARE

Built on print. Driven by precision.

Shree Pack Containers Pvt. Ltd. (SPCPL) was founded in February 2000 by **B.M. Rai** in Vasai, on the edge of Mumbai. What began as a carton printing unit is today a three-division packaging house producing folding cartons, E-flute corrugated boxes, self-adhesive labels and leaflets for some of India's best-known pharmaceutical, FMCG and specialty brands.

The second generation, led by Executive Director **Rohan Rai**, a German-trained print technologist and PrintWeek 40 Under 40 winner, has invested steadily in automated inspection, colour science and converting capacity. The aim is simple: every pack we deliver should be consistent, compliant and on time.

Today our two units in Vasai run offset, flexo and leaflet lines side by side, backed by an in-house prepress team, ink kitchen and quality lab. That lets us take a pack from artwork to dispatch without handing it to anyone else.

OUR PROMISE

The right pack, right first time, every time.

Quality without compromise

Certified systems and inspection at every stage, not just at the end.

Partnership, not job-work

A dedicated relationship manager who knows your brand and your SKUs.

Consistency you can plan on

Controlled colour and repeatable output, batch after batch.

Family-run, professionally managed

Owner attention on every account, with systems that scale.

AT A GLANCE

2000

Year founded, in Vasai, Mumbai

60,000 sq ft

Manufacturing space across two units

3 divisions

Offset cartons, flexo labels and pharma leaflets

40–450 GSM

From bible paper leaflets to rigid carton board

E-flute

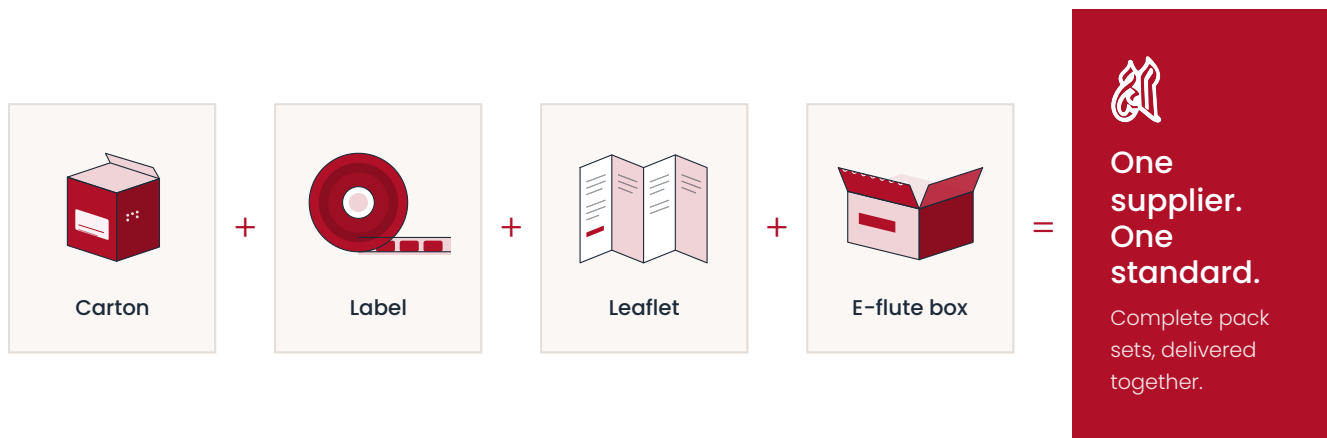

Corrugated boxes and cartons for added strength

5 certifications

PS 9000 · BRCGS · GMP · ISO 9001 · FSC

One roof. Every printed part of your pack.

A finished product usually needs several printed parts: a carton, a label, a leaflet and often an E-flute outer box. Most brands buy them from different vendors and manage separate audits, colour standards and delivery schedules. At SPCPL, they are all made under one roof.

01

One vendor, one audit

A single approved supplier for your printed packaging, with one set of quality systems and documentation.

02

Colour that matches across parts

One in-house ink kitchen and spectrophotometer-controlled colour, so every part of your pack looks like one brand.

03

Synchronised supply

Components are planned and dispatched together, so your packing line never waits on the one missing item.

04

One point of contact

A dedicated relationship manager for your account across all our divisions. One call, one answer.

	SEPARATE VENDORS	WITH SPCPL
Vendor audits and approvals	3	1
Colour standards to manage	3	1
Delivery schedules to align	3	1
People to call when something changes	3	1

Pharma at the core. Trusted well beyond it.

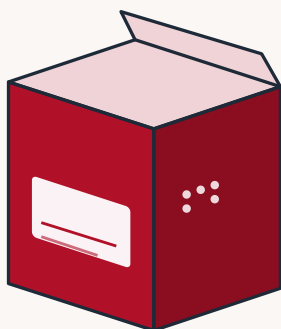

The discipline that pharma packaging demands (accuracy, traceability, zero mix-ups) is the standard we apply to every brand we print for.

 Pharmaceuticals Mono and braille cartons, pharma labels, package inserts and folded leaflets, built for GMP, artwork accuracy and full traceability. Sun Pharma · Lupin · Mankind · Alembic · Emcure · Ipca	 FMCG Shelf-ready printed cartons and product labels that hold colour across long runs and repeat orders. Cartons · product labels · multipacks
 Beauty & personal care MET-PET, foil, spot and raised UV, drip-off, glitter and fragrance finishes that make a pack stand out on shelf. Nykaa · Sugar	 Nutraceuticals & wellness Premium cartons, labels and inserts for supplements, vitamins and wellness products. Meyer Vitabiotics
 Agrochemicals & lubricants Durable labels and cartons with variable data and barcodes for demanding supply chains. Heranba · IPOL · Nandan Petrochem	 Beverages & spirits Premium self-adhesive labels with hot and cold foil and tactile UV effects. Labels · foil · tactile finishes

New category or product launch? We support you end to end: packaging design, artwork development through to approved samples, and brand films that bring your product to life.

Folding cartons

From plain mono cartons to multi-effect premium packs. Our cartons are printed on Heidelberg Speedmaster presses with in-line UV and coating, then converted on Bobst and Heidelberg die-cutting and folder-gluing lines, with braille applied in-line.

Board up to 450 GSM

Up to 6 colours + coating

In-line UV

In-line braille

E-flute & corrugation

Sheet inspection

WHAT WE MAKE

Mono cartons

Printed unit cartons for tablets, capsules, tubes, bottles and ampoules.

Multicolour printed cartons

High-fidelity brand colour and fine text, repeatable across batches.

Braille cartons

Braille applied in-line on Bobst Expertfold with Accubraile.

UV-printed MET-PET cartons

Metallic, high-impact premium packs for beauty and wellness.

E-flute cartons & corrugated boxes

Printed E-flute packs and outer boxes for heavier products and shipping.

Catch covers

Printed covers and sleeves for strips and blister packs.

KEY EQUIPMENT

- Heidelberg Speedmaster CD 74, 6 colour + LX with UV
- Heidelberg Speedmaster CD 74, 5 colour + LX with coater
- Heidelberg Speedmaster 72V, 4 colour
- CTP platemaking (CRON)
- Bobst Ambition & Bobst Expertfold with Accubraile
- Heidelberg Maxima folder-gluer
- Heidelberg & Maxima automatic die-cutting
- Foil stamping, lamination & automatic pasting
- Tec4check print sheet inspection

Unit 1 · ground + 2 floors · Vasai

Complete the pack. Pair your cartons with our labels and leaflets. Matched colour, one audit, one delivery.

Cartons

Labels

Leaflets

Self-adhesive labels

Labels in roll and sheet form, printed on 8-colour and 6-colour Zonten UV flexo presses with cold foil and online inspection. Variable data, numbering and barcodes are added on the line, and every roll is slit and checked before it ships.

Up to 8 colours UV

Hot & cold foil

Variable numbering

Roll & sheet

100% inspection

WHAT WE MAKE

Pharmaceutical labels

Bottle, vial and carton labels with fine text and batch-level traceability.

Cosmetic & personal-care labels

Premium decoration with foil and tactile finishes.

Product & FMCG labels

Multicolour labels that hold brand colour on every run.

Barcode & variable-data labels

Sequential numbering and codes printed in-line.

Liquor labels

High-end labels with metallic and embellished effects.

Thermal labels

For logistics, warehousing and on-demand printing.

KEY EQUIPMENT

- Zonten 8-colour UV flexo with 2 cold-foil units and online BST (Germany) inspection
- Zonten 6-colour UV flexo with cold-foil unit
- Die-cutters MQ 320, MQ 320Z & JM 320 with hot foil stamping
- CONDOT numbering systems, 8 heads
- Mark V numbering system, 8 heads
- High-speed slitters FQ 320 (×2) with CONDOT inkjet numbering
- AVT offline camera inspection

Unit 2 · flexo and leaflet divisions · Vasai

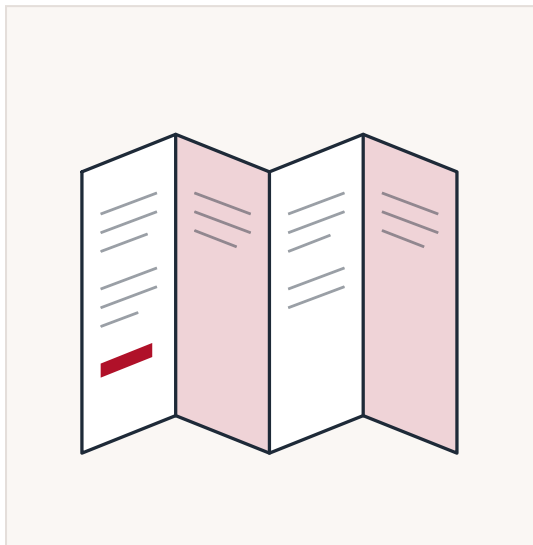

Complete the pack. Pair your labels with our cartons and leaflets. Matched colour, one audit, one delivery.

Cartons

Labels

Leaflets

Leaflets & inserts

Package inserts and patient information leaflets on paper as light as 40 GSM bible paper. We print on Heidelberg perfecting presses, then fold on automatic lines that inspect every leaflet and read its pharma code, so the right insert goes into the right carton.

From 40 GSM bible paper

Perfecting (both sides)

6 & 8 folds

Pharma code reading

Auto inspection

WHAT WE MAKE

Package inserts & PILs

Dense regulatory text, printed crisp and legible on thin stock.

Folded leaflets

Six- and eight-fold formats, folded and inspected in-line.

Brochures & product literature

Multi-page and multicolour printed material for brands.

WHY IT MATTERS

A leaflet mix-up can mean a product recall. Pharma code reading on every folding line checks each leaflet against its job, and automatic inspection rejects faults before they reach packing.

KEY EQUIPMENT

- Heidelberg Speedmaster 102 ZP perfector
- Heidelberg 28×40 perfectors for leaflets (×2)
- Heidelberg SM 2-colour presses (×2)
- Four Pratham folding lines, 6 & 8 folds
- Auto inspection system on every folding line
- Pharma code reader on every folding line
- Polar computerised cutting

Complete the pack. Pair your leaflets with our cartons and labels. Matched colour, one audit, one delivery.

Cartons

Labels

Leaflets

Finishes that sell on shelf.

Premium effects, done in-house, so decoration never slows your timeline or leaves our quality system.

Hot foil stamping

Metallic gold, silver and colour foils on cartons and labels.

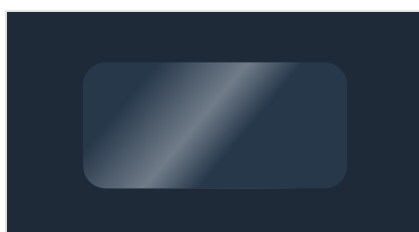

Cold foil

In-line metallic effects on our UV flexo presses.

MET-PET cartons

UV printing on metallised board for a mirror-like finish.

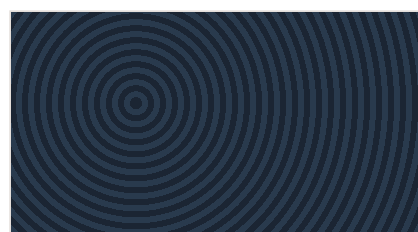

Spot UV

Selective high-gloss highlights on a matt base.

Raised (tactile) UV

Textured, touchable effects on logos and graphics.

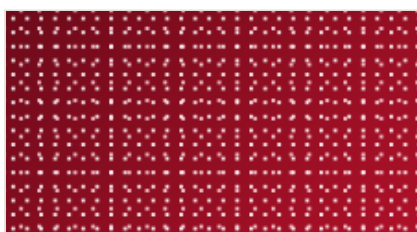

Drip-off

Gloss and matt contrast in a single pass.

UV lacquer

Full-surface gloss protection and shelf appeal.

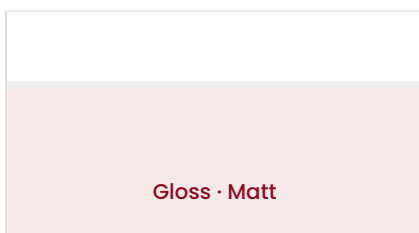

Glitter

Sparkle effects for beauty and festive packs.

Fragrance

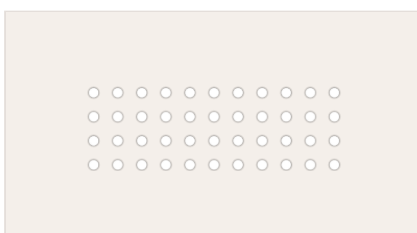

Scented varnish that lets the pack sell by touch and smell.

Gloss · Matt

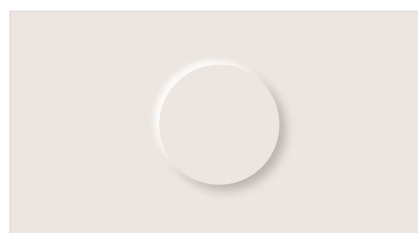

Lamination

Gloss or matt lamination for durability and feel.

Braille

Accessible, compliant braille applied in-line on cartons.

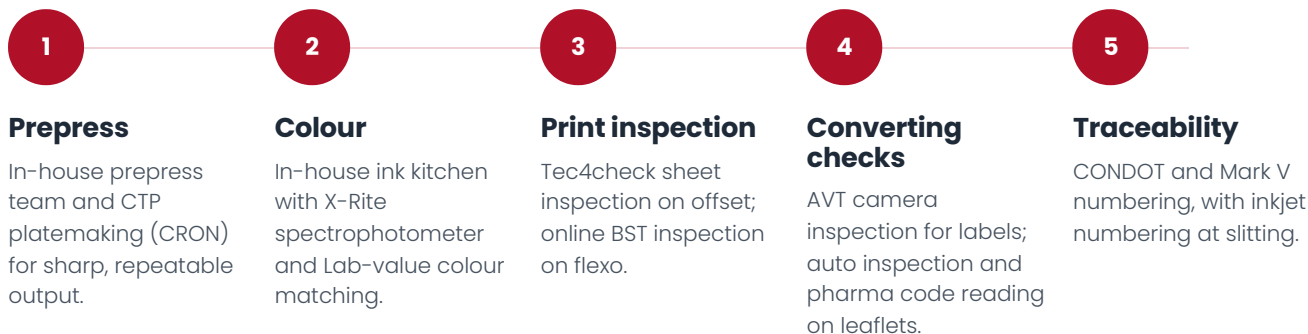

...and more

Ask us about combining effects for your next launch.

Zero-defect by design.

In pharma packaging, one wrong carton or leaflet can recall a batch. Our quality system is built to catch errors at every stage, not just at the end of the line.

CERTIFICATIONS

PS 9000	Pharmaceutical Quality Group certified supplier of pharma packaging materials
BRCGS	Packaging Materials: global standard for packaging safety and quality
GMP	Good Manufacturing Practice certified
ISO 9001	Quality management system
FSC	Responsibly sourced paper and board

BUILT FOR AUDITS

- Documented quality system under PS 9000 and BRCGS
- Braille applied in-line for regulated markets
- Pharma code verification to prevent leaflet mix-ups
- Batch-wise numbering and traceability
- Certified and audited by independent bodies

Two units. Three divisions. One quality system.

Both units sit in the Vasai Municipal Industrial Area, a short drive apart, so work moves between divisions easily and complete pack sets ship together.
